

# CASE RACE for Q2 FY2026

- Run dates: now through March 31, 2026 for use in Q2 2026
- Send images/videos with clear outline of order to Sara Quintero
- Game website: <https://info.scientiavascular.com/case-race>

The following instructions apply to any/all types of cases submitted. Once a case has been submitted, vetted, and determined to meet one of the tiers below, Marketing will notify Payroll of your payout to be included on your next check and the website will be updated. All cases must be on label:

**Aristotle® Indication for use** The Aristotle® Guidewire is for general vascular use within the neuro and peripheral vasculatures to introduce and position catheters and other interventional devices.

**Socrates® 38 Indication for use** Revascularization of patients with acute ischemic stroke secondary to intracranial large vessel occlusive disease (within the internal carotid, middle cerebral -M1 and M2 segments, basilar, and vertebral arteries).

**Plato® 17 Indication for use** Intended for the introduction of therapeutic devices, infusion of diagnostic agents (such as contrast media), and delivery of embolization materials to the peripheral and neurovascular systems. It is compatible with Onyx, but not compatible with TruFill. Any cases submitted using TruFill would be considered "off-label" and cannot be used.

## TIER 1:

Type of case:

Disease state and condition of patient when they presented:
